## Projects

### CoinTrace – Cryptocurrency Tracking Website | Next.js

[cointrace.vercel.app](https://cointrace.vercel.app)

- Built a crypto tracking platform with live data integration from trusted APIs, supporting both client-side and server-side rendering for speed and SEO.
- Designed reusable UI components, charts, and filters with ShadCN for real-time price tracking and smooth analysis experience.
- Delivered a scalable and responsive web app with a focus on usability and modern frontend practices.

### WeCare – Hospital Booking System | MERN STACK

[wecare.netlify.app](https://wecare.netlify.app)

- Created a hospital appointment management system with patient data storage and retrieval.
- Developed clean UI for doctors and patients, ensuring quick appointment scheduling.
- Improved workflow efficiency by digitizing booking processes and enabling easy data management.

### AamJob – Job Portal Website | React.js

[aamjob.netlify.app](https://aamjob.netlify.app)

- Built a dynamic job portal enabling users to browse and search job listings with ease.
- Integrated reusable React components and responsive design for cross-device compatibility.
- Delivered a functional, scalable platform with a professional and intuitive UI.
